Section 1: Identification of the substance or mixture and of the supplier

Product name: DNA-2500 Separation Buffer
Name of supplier: Shimadzu Corporation
Address: 1 Nishinokyo-Kuwabaracho, Nakagyo-ku, Kyoto 604-8511, Japan
Section in charge: Clinical & Biotechnology Business Unit, Life Science Business Department
Telephone: +81-75-823-1351
FAX: +81-75-823-1364
Use of the product: This product is for analytical research use only.
Not applicable for clinical and/or diagnostic purposes.

Section 2: Hazards Identification

GHS classification:
- Reproductive toxicity: Category 1B
  - Specific target organ toxicity (Single exposure): Category 2 (Nervous system, Digestive tract)
  - Specific target organ toxicity (Repeated exposure): Category 2 (Kidneys)

Symbol: Danger

Hazard statements:
- May damage fertility or the unborn child.
- May cause damage to organs.
- May cause damage to organs through prolonged or repeated exposure.

Prevention:
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.
- Wash hands thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Wear protective gloves/ protective clothing/ eye protection.

Response:
- IF exposed or concerned: Call a POISON CENTER/ doctor.
- IF exposed or concerned: Get medical advice/ attention.
- Get medical advice/ attention if you feel unwell.

Storage: Store locked up.
Disposal: Dispose of contents/ container according to all federal, state and local environmental regulations.

Section 3: Composition/information of ingredients

Substance/ mixture: Mixture
General description: Buffer solution including boric acid and tris(hydroxymethyl)aminomethane.
Substances:
- Boric acid: CAS No. 10043-35-3 <5%
- Tris(hydroxymethyl)aminomethane: CAS No. 77-86-1 <5%

Section 4: First-aid measures

Inhalation: Remove to uncontaminated area and supply fresh air. Promptly consult doctor, if needed.
Skin contact: Take off contaminated clothing and wash skin with plenty of water.
Eye contact: Flush eyes with plenty of water for at least 15 minutes, and obtain medical attention.
Ingestion: Drink plenty of water to induce vomiting, and obtain medical attention.
Section 5: Fire-fighting measures
Extinguishing media: Use water mist, foam, powder, carbon dioxide, dry sand.
Specific hazards arising from fire-fighting:
Gases will form upon combustion of carbon monoxide, nitrogen oxides, boric oxides.
Special fire-fighting measures: In case of fire in the surrounding area, promptly move the container to a safe place.

Section 6: Accidental release measures
Personal precautions: Wear appropriate protective equipment
Environmental precautions: Absorb as much of the material as possible with paper towel or sand.

Section 7: Handling and storage
Handling: Wear personal protective equipment in order to prevent inhalation and the product from conducting eyes or skin.
Storage: Keep tightly closed in dark cool place.

Section 8: Exposure controls/personal protection
Exposure limits: No occupational exposure limit values and/or biological limit values are established.
Permitted concentration: Japan Society for Occupational Health: Not established
ACGIH: (Boric Acid) TWA 2mg/m³(1), STEL 6mg/m³(1)
Equipment measures: Eyewash equipments
Respiratory protection: Not required
Hand protection: Wear impervious glove.
Eye protection: Wear tightly sealed goggles.
Skin and body protection: Wear white coat.

Section 9: Physical and chemical properties
Appearance (Physical state, color, etc.): Colorless, transparent liquid
Odor: None
pH: 8.1 at 20°C
Melting/ Freezing point: No data available
Boiling point/ boiling range: No data available
Flash point: No data available
Evaporation rate: No data available
Vapor pressure: No data available
Density/ relative density: No data available
Water solubility: Miscible
Auto ignition: The product does not combust spontaneously.
Decomposition temperature: No data available
Viscosity: No data available

Section 10: Stability and reactivity
Reactivity: No risk of hazardous reaction.
Stability: Stable at normal temperature and pressure.
Conditions/Materials to avoid: Oxidizing substances
Hazardous decomposition products: No information available

Section 11: Toxicological information
No data available for the mixture.
Additional toxicological information on the components of this product
Boric acid: Acute toxicity (oral): LD50 value of 3,241mg/kg
Skin corrosion/irritation: At 24 and 72 hours, moderate irritation was noted. Serious eye damage/eye irritation: The substance irritates the human eye.

Reproductive toxicity:
Adverse effects on reproduction of parental animals and development of pups at doses producing no parental toxicity.

Specific target organ toxicity (single exposure):
Causes damage to organs (nervous system, digestion tract)

Specific target organ toxicity (repeated exposure):
Causes damage to organs (kidney) through prolonged or repeated exposure.

Section 12: Ecological information

No data available for the mixture.

Additional toxicological information on the components of this product:
Boric acid:
Ecotoxicity: Hazardous to the aquatic environment (acute hazard) was classified into Not classified.
Hazardous to the aquatic environment (long-term hazard) was classified into Not classified.
Persistence and degradability: No data available
Bioaccumulative potential: No data available
Biotransportability: No data available

Section 13: Disposal considerations

Residual waste: Dispose of contents/container according to all federal, state and local environmental regulations.
Contaminated container: After removing the contents, dispose of contents/container according to all federal, state and local environmental regulations.

Section 14: Transport information

US DOT, IMDG (sea), ADR/RID (land), ICAO/IATA (air): No classification assigned.
Prior to transport, make sure no leakage is observed from the bottle and stow a cargo without dropping and turning over.

Section 15: Regulatory information

U.S. TSCA Inventory: Boric acid
The composition/information of ingredients is disclosed according to GHS. Comply with all countries, national and local regulation.

Section 16: Other information

### Section 4: First-aid measures

**Inhalation:** Remove to uncontaminated area and supply fresh air. Promptly consult doctor, if needed.

**Skin contact:** Take off contaminated clothing and wash skin with plenty of water.

**Eye contact:** Flush eyes with plenty of water for at least 15 minutes, and obtain medical attention.

**Ingestion:** Drink plenty of water to induce vomiting, and obtain medical attention.

### Section 5: Fire-fighting measures

**Extinguishing media:** Use water mist, foam, powder, carbon dioxide, dry sand.

**Specific hazards arising from fire-fighting:** Gases will form upon combustion of carbon monoxide, nitrogen oxides, boric oxides.

**Special fire-fighting measures:** In case of fire in the surrounding area, promptly move the container to a safe place.

### Section 6: Accidental release measures

**Personal precautions:** Wear appropriate protective equipment

**Environmental precautions:** Absorb as much of the material as possible with paper towel or sand.
### Section 7: Handling and storage

**Handling:** Wear personal protective equipment in order to prevent inhalation and the product from conducting eyes or skin.

**Storage:** Keep tightly closed in a dark cool place.

### Section 8: Exposure controls/personal protection

**Exposure limits:** No occupational exposure limit values and/or biological limit values are established.

**Permitted concentration:**
- Japan Society for Occupational Health: Not established
- ACGIH: (Boric Acid) TWA 2mg/m³(I), STEL 6mg/m³(I)

**Equipment measures:** Eyewash equipments

**Respiratory protection:** Not required

**Hand protection:** Wear impervious glove.

**Eye protection:** Wear tightly sealed goggles.

**Skin and body protection:** Wear white coat.

### Section 9: Physical and chemical properties

**Appearance (Physical state, color, etc.):** Colorless, transparent liquid

**Odor:** None

**pH:** 8.1 at 20°C

**Melting/Freezing point:** No data available

**Boiling point/boiling range:** No data available

**Flash point:** No data available

**Evaporation rate:** No data available

**Vapor pressure:** No data available

**Density/relative density:** No data available

**Water solubility:** Miscible

**Auto ignition:** The product does not combust spontaneously.

**Decomposition temperature:** No data available

**Viscosity:** No data available

### Section 10: Stability and reactivity

**Reactivity:** No risk of hazardous reaction.

**Stability:** Stable at normal temperature and pressure.

**Conditions/Materials to avoid:** Oxidizing substances

**Hazardous decomposition products:** No information available

### Section 11: Toxicological information

No data available for the mixture.

Additional toxicological information on the components of this product

**Boric acid:**
- Acute toxicity (oral): LD50 value of 3,241mg/kg
- Skin corrosion/irritation: At 24 and 72 hours, moderate irritation was noted.
- Serious eye damage/eye irritation: The substance irritates the human eye.
- Reproductive toxicity:
  - Adverse effects on reproduction of parental animals and development of pups at doses producing no parental toxicity.
- Specific target organ toxicity (single exposure):
  - Causes damage to organs (nervous system, digestion tract)
- Specific target organ toxicity (repeated exposure):
  - Causes damage to organs (kidney) through prolonged or repeated exposure.
Section 12: Ecological information

No data available for the mixture.
